

Absolute Excellence in Maritime Cleaning

High-performance cargo hold cleaning and risk mitigation
for port operations across South America.

Clinical Precision on an Industrial Scale

Preparing a bulk carrier requires more than just cleaning. Every hour in port costs money, and every residual trace compromises the next cargo load.

We deliver absolute speed, efficiency, and safety so your vessel returns to operation without delays.

30+ YEARS

A Legacy of Trust at Sea

Focused Expertise

Exclusive dedication to bulk carrier cargo hold cleaning operations.

Operational Legacy

Over 30 years of proven experience providing agile and secure port solutions.

Strategic Base

Headquartered in Santos, São Paulo—the absolute core of the Brazilian port ecosystem.

The Triad of Operational Excellence

Technological Efficiency

- Modern, high-capacity equipment fleet.
- Specialized, high-performance intervention teams.

Safety & Compliance

- Rigorous and complete port certifications.
- Robust civil liability insurance coverage.

Active Sustainability

- Exclusive use of 100% biodegradable products.
- Zero passive environmental impact.

NO CURE, NO PAY

We operate under the “No Cure, No Pay” policy in absolutely all our operations.

If the cargo hold is not approved for loading by inspectors, the financial risk is 100% ours.

A guarantee of total alignment with your operational results.

Technical Capacity and Swift Execution

Global Standards.

Rigorous execution in full compliance with both national and international maritime cleaning norms.

Modern Fleet.

Utilization of our proprietary fleet of next-generation equipment, guaranteeing reach and power deep within the holds.

Human Capital.

Highly trained intervention teams specifically specialized in confined spaces and high-risk operations.

Operational Shielding and Total Compliance

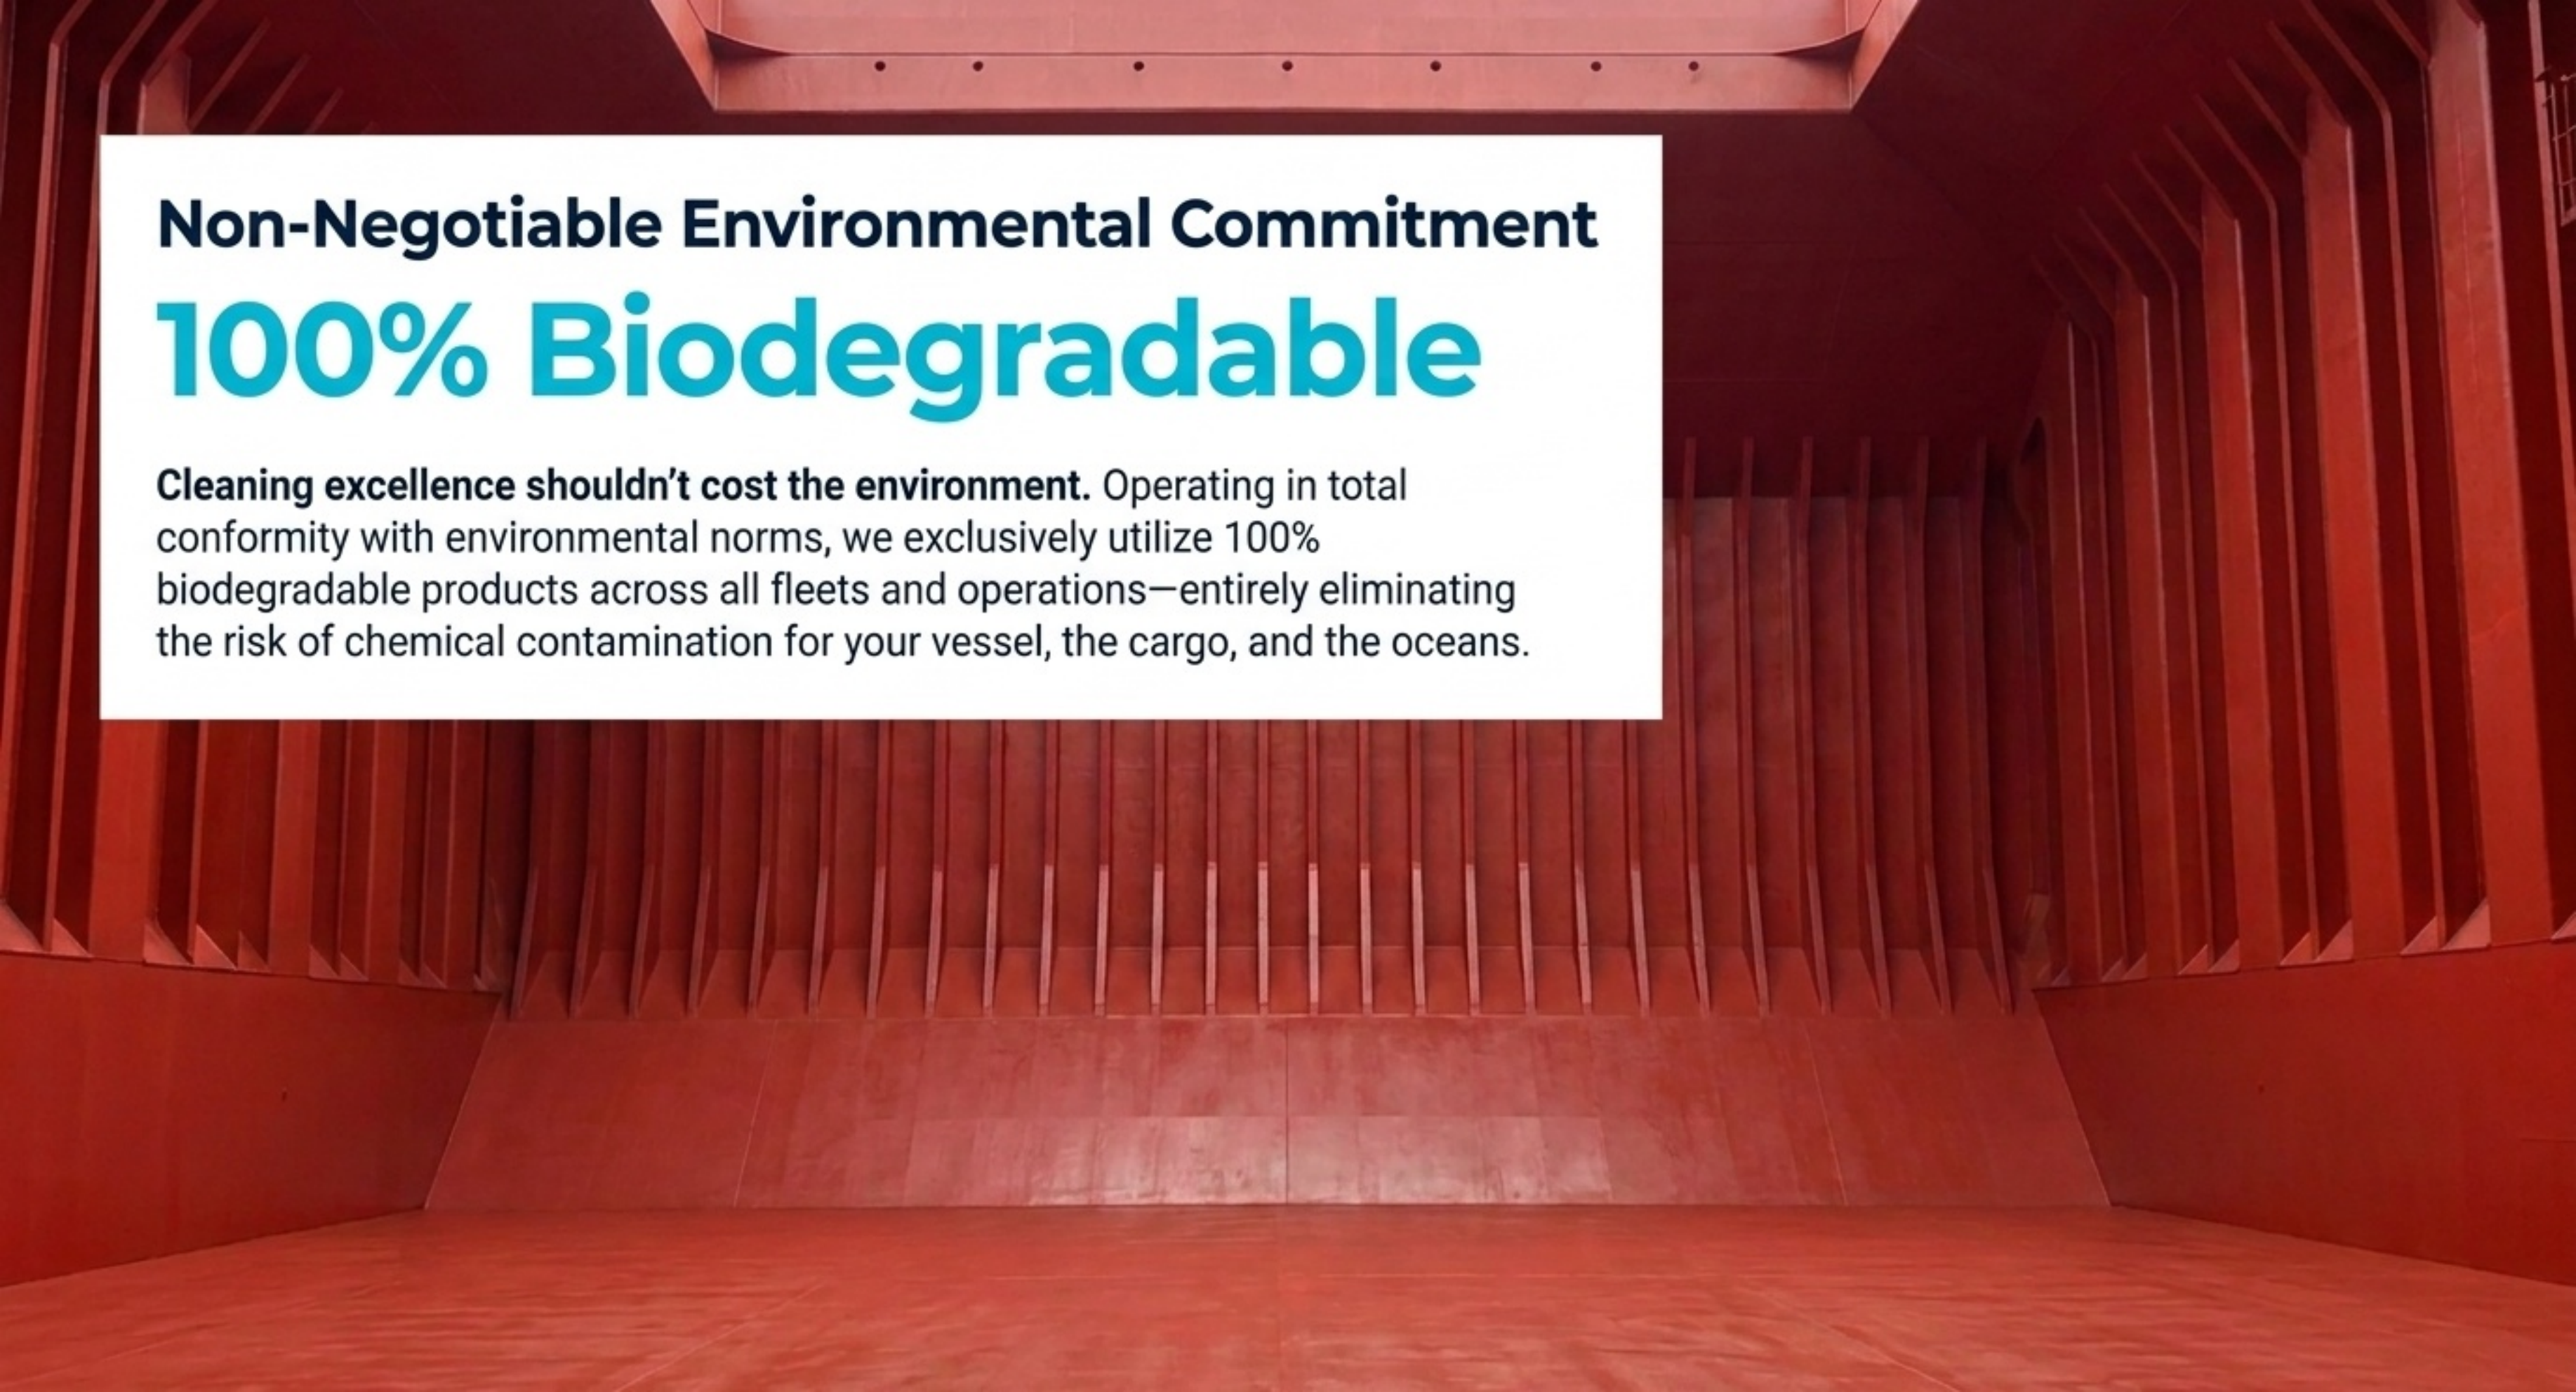

Official Accreditation

- ✓ Duly certified and operating under the rigorous NAP.SUMAS.OPR.005 standard.
- ✓ Granted full authorization by the Port Authority to operate within the Port of Santos complex.

Financial Protection

Civil Liability Insurance: All operations are fully covered by a robust active policy. We ensure absolute asset protection and peace of mind for our clients against unexpected damages.

Non-Negotiable Environmental Commitment

100% Biodegradable

Cleaning excellence shouldn't cost the environment. Operating in total conformity with environmental norms, we exclusively utilize 100% biodegradable products across all fleets and operations—entirely eliminating the risk of chemical contamination for your vessel, the cargo, and the oceans.

Why Choose Cargo Ships Cleaning?

Dimension	Cargo Ships Standard	Standard Market Risk
Financial Risk	 Zero Risk (No Cure, No Pay)	 Client Risk (Upfront or hourly payment)
Damage Protection	 Active Civil Liability Insurance	 Uninsured Operational Liabilities
Chemical Products	 100% Biodegradable and Safe	 Risk of Contamination and Fines
Compliance	 Official NAP.SUMAS.OPR.005 Accreditation	 Inconsistent Operational Standards

Logistical Capacity and Territorial Reach

Fully prepared to operate in the primary ports of Brazil and South America.

South & Southeast

Santos, Itaguaí, Paranaguá, Imbituba, Vitória, São Francisco do Sul, Tramandaí, Rio Grande, Porto do Açu.

North & Northeast

Mucuripe, Salvador, Maceió, Recife, PECEM.

International

Buenos Aires.

Operational Readiness Across South America

The Legacy

**Over 30 Years
of Authority.**

The Method

**Sustainable, Safe,
and Certified.**

The Guarantee

**No Cure,
No Pay.**

Wherever your ship docks, our logistical structure ensures that cargo hold cleaning is never the bottleneck of your operation.
